PROFILE

Enthusiastic and detail-oriented Frontend Developer with expertise in HTML, CSS, JavaScript, and React. Certified in MERN stack development, skilled in creating responsive and user-friendly interfaces. Strong understanding of web standards and cross-browser compatibility. Eager to apply technical skills and creativity to build innovative web solutions and contribute to dynamic development teams.

PROJECTS

Growing Website (Live) 🔗

Designed and developed a responsive skincare website using HTML, CSS, and JavaScript. Implemented smooth animations and interactive elements to enhance user engagement. Focused on creating a clean, modern UI with a seamless user experience. Ensured cross-browser compatibility and optimized performance for fast loading and accessibility.

Ecommerce-Website (Live) 🔗

Developed a dynamic and responsive e-commerce website using HTML, CSS, and JavaScript. Designed a user-friendly interface with smooth animations for an engaging shopping experience. Integrated interactive features such as product displays, hover effects, and seamless navigation. Focused on performance optimization, responsive design, and cross-browser compatibility for a consistent user experience.

Fruits-Web (React js) 🔗

Built a responsive Fruits E-commerce website using React, featuring a modern design and seamless user experience. Leveraged React components to display fruit categories dynamically and implemented state management for cart functionality. Enhanced UI with smooth animations and optimized performance for fast loading. Ensured responsiveness and accessibility across devices, providing an engaging and intuitive shopping platform.

Food-Cafe(Live) 🔗

Developed a responsive Food Café website using HTML, CSS, and JavaScript. Designed an appealing user interface with smooth animations and interactive features to showcase menu items and services. Focused on creating a seamless navigation experience, optimized performance for fast loading, and ensured compatibility across devices for an engaging and modern café website.

Image-Gallery(Live) 🔗

Created a responsive and interactive Image Gallery website using HTML, CSS, and JavaScript. Designed a sleek layout with hover effects and smooth animations for enhanced user engagement. Implemented features like lightbox display and category filtering. Ensured fast loading, cross-browser compatibility, and a seamless browsing experience across all devices.
